unique and incredible experience for body and
mind. It is not to miss, specially if you are
honeymoon like me and my husband. We will
not forget it, nor our body. Every single detail
is clear in mind; decoration, smells, sounds and
course the massage experts, who really know
what they do and practice this incredible technic in
a magnificent way.

Very great and absolutely unforgettable! We will
recommend it, for sure, to our friends in Argentina!!

Congratulations for your great work!

Milenka and Fernando!
